SUBJECT INDEX TO VOLUME 29

Analytical microscopy

The determination of the structure and composition at interfaces to atomic resolution, *Boothroyd, Baxter, Bithell, Hÿtch, Ross, Sato and Stobbs* 29 (1989) 18

Frontiers of analytical electron microscopy with special reference to cluster and interface problems, *Colliex, Maurice and Ugarte* 29 (1989) 31

Material transport mechanisms during the diffusion bonding of niobium to Al_2O_3, *Burger und Rühle* 29 (1989) 88

Characterization of freeze-dried alumina powders using electron microscopy, *Lloyd, Blachere, Beyer, Kalnas and Mairet* 29 (1989) 153

Decomposition of refractory carbides in the analytical electron microscope, *Medlin, Thomas and Howitt* 29 (1989) 228

Characterization of ceramic films and interfaces by electron microscopic and spectroscopic techniques, *Erdemir and Cheng* 29 (1989) 266

Analysis of precipitation in cast alloy 718, *Muralidharan, Thompson and Walck* 29 (1989) 277

Radiation damage and copper distribution in 14 MeV copper-ion-implanted nickel – TEM and AEM analyses in cross-section, *Wang, Dodd and Kulcinski* 29 (1989) 284

Conventional electron microscopy

Electron microscopy of $Bi_2Sr_2Ca_nCu_{1+n}O_{6+2n}$ and $Tl_2Ba_2Ca_nCu_{1+n}O_{6+2n}$ superconductors, *Van Tendeloo, Zandbergen, Van Landuyt and Amelinckx* 29 (1989) 115

Application of transmission electron microscopy to the observation of dislocation emission from crack tips at elevated temperatures, *Clarke and Chiao* 29 (1989) 203

TEM and in-situ EM study of the dispersion of MoO_3 on SiO_2, *Datta, Regalbuto and Allen* 29 (1989) 233

Radiation damage and copper distribution in 14 MeV copper-ion-implanted nickel – TEM and AEM analyses in cross-section, *Wang, Dodd and Kulcinski* 29 (1989) 284

Diffraction and optical diffraction

Diffraction studies of structure in two Fe multilayers, *Foiles* 29 (1989) 80

Electron energy loss spectroscopy

Extraction of electronic structural information on the grain-boundaries of Pd-based polycrystalline specimens with transmission electron energy loss spectroscopy, *Liu* 29 (1989) 44

High resolution

Grain boundary structure and migration, *Smith* 29 (1989) 1

The determination of the structure and composition at interfaces to atomic resolution, *Boothroyd, Baxter, Bithell, Hÿtch, Ross, Sato and Stobbs* 29 (1989) 18

Frontiers of analytical electron microscopy with special reference to cluster and interface problems, *Colliex, Maurice and Ugarte* 29 (1989) 31

High resolution transmission electron microscopy of interphase interfaces in NiO–ZrO_2 (CaO), *Dravid, Lyman, Notis and Revcolevschi* 29 (1989) 60

Anomalous slip in a FCC system, *Lee, Robertson and Birnbaum* 29 (1989) 212

High voltage

In-situ HVEM studies of the early stages of oxidation of nickel and nickel–chromium alloys, *Marikar, Brodsky, Sowers and Zaluzec* 29 (1989) 247

Methods and techniques

Surface electromigration of metal atoms on Si(111) surfaces studied by UHV reflection electron microscopy, *Yamanaka, Yagi and Yasunaga* 29 (1989) 161

Application of transmission electron microscopy to the observation of dislocation emission from crack tips at elevated temperatures, *Clarke and Chiao* 29 (1989) 203

Cross-section specimen preparation technique for nickel alloys and stainless steels, *Seitzman, Wang, Griffin, Komissarov, Kulcinski and Dodd* 29 (1989) 291

New developments

TEM and in-situ EM study of the dispersion of MoO_3 on SiO_2, *Datta, Regalbuto and Allen* 29 (1989) 233

In-situ HVEM studies of the early stages of oxidation of nickel and nickel–chromium alloys, *Marikar, Brodsky, Sowers and Zaluzec* 29 (1989) 247
In-situ observations of intrinsic grain boundary structure during thermal cycling, *Lillo, Plichta and Hackney* 29 (1989) 257

Radiation damage and contamination
Electron irradiation damage in oxides, *Buckett, Strane, Luzzi, Zhang, Wessels and Marks* 29 (1989) 217
Decomposition of refractory carbides in the analytical electron microscope, *Medlin, Thomas and Howitt* 29 (1989) 228
Radiation damage and copper distribution in 14 MeV copper-ion-implanted nickel – TEM and AEM analyses in cross-section, *Wang, Dodd and Kulcinski* 29 (1989) 284

Reflection electron imaging and reflection high energy electron diffraction
Profile imaging of surfaces and surface reactions, *Smith, Glaisher, Lu and McCartney* 29 (1989) 123
Reflection electron imaging of free surfaces and surface/dislocation interactions, *Peng, Cowley and Hsu* 29 (1989) 135
Surface electromigration of metal atoms on Si(111) surfaces studied by UHV reflection electron microscopy, *Yamanaka, Yagi and Yasunaga* 29 (1989) 161
Thermal diffuse scattering and REM image-contrast preservation, *Peng and Cowley* 29 (1989) 168
Elastic and inelastic scattering effects in reflection electron microscopy, *Bleloch, Howie, Milne and Walls* 29 (1989) 175
Dynamical theory of spot splitting in RHEED, *Marks and Ma* 29 (1989) 183
RHEED detection of near surface crystalline phases on a $Pd_{80}Si_{20}$ metallic glass surface with adsorbates present, *Tlomak, Hannus and Brower, Jr.* 29 (1989) 192

Scanning electron microscopy
Secondary electron spectroscopy in a dedicated scanning transmission electron microscope, *Bleloch* 29 (1989) 147

Scanning transmission electron microscopy
Secondary electron spectroscopy in a dedicated scanning transmission electron microscope, *Bleloch* 29 (1989) 147

Specimen preparation
Chemical compatibility of CVD and plasma-assisted CVD Si_3N_4 and SiO_2 coatings for thermal protection of carbon–carbon composite, *Kowbel, Chen and Yenchang* 29 (1989) 71
On the preparation of cross-sectional TEM samples using lithographic processing and reactive ion-etching, *Wetzel, Jost, Rishton, Fryer, Kwietniak, Klaus, Bucchignano, Hu and Brown, Jr.* 29 (1989) 110
Cross-section specimen preparation technique for nickel alloys and stainless steels, *Seitzman, Wang, Griffin, Komissarov, Kulcinski and Dodd* 29 (1989) 291

Surfaces, clusters, interfaces and particles
Grain boundary structure and migration, *Smith* 29 (1989) 1
Effect of thermal and stress exposure on grain boundaries of silicon nitride, *Bradley and Karasek* 29 (1989) 9
The determination of the structure and composition at interfaces to atomic resolution, *Boothroyd, Baxter, Bithell, Hÿtch, Ross, Sato and Stobbs* 29 (1989) 18
Frontiers of analytical electron microscopy with special reference to cluster and interface problems, *Colliex, Maurice and Ugarte* 29 (1989) 31
Extraction of electronic structural information on the grain-boundaries of Pd-based polycrystalline specimens with transmission electron energy loss spectroscopy, *Liu* 29 (1989) 44
Microstructural studies of sputter-deposited TiN ceramic films, *Pelton, Dabrowski, Lehman, Ernsberger, Miller and Mansfield* 29 (1989) 50
High resolution transmission electron microscopy of interphase interfaces in $NiO–ZrO_2(CaO)$, *Dravid, Lyman, Notis and Revcolevschi* 29 (1989) 60
Diffraction studies of structure in two Fe multilayers, *Foiles* 29 (1989) 80
Material transport mechanisms during the diffusion bonding of niobium to Al_2O_3, *Burger and Rühle* 29 (1989) 88
Interfacial studies of carbon–carbon composites, *Kowbel, Chen and Yenchang* 29 (1989) 98
Profile imaging of surfaces and surface reactions, *Smith, Glaisher, Lu and McCartney* 29 (1989) 123
Reflection electron imaging of free surfaces and surface/dislocation interactions, *Peng, Cowley and Hsu* 29 (1989) 135
RHEED detection of near surface crystalline phases on a $Pd_{80}Si_{20}$ metallic glass surface with adsorbates present, *Tlomak, Hannus and Brower, Jr.* 29 (1989) 192
In-situ observations of intrinsic grain boundary structure during thermal cycling, Lillo, *Plichta and Hackney* 29 (1989) 257
Characterization of ceramic films and interfaces by electron microscopic and spectroscopic techniques, *Erdemir and Cheng* 29 (1989) 266
